

INTERCHIM

Interchim is a French multinational company dedicated to sciences with its own R&D laboratory. Interchim manufactures and distributes instruments, products and Consumables for Research & Industry.

The company was created in 1970, by Colette Boch & Jean Boch (PhD, former Research Director at Sanofi Aventis).

It is still a family-owned business today, by Lionel Boch, Président du Directoire & Corinne Jourdain, Directeur Général.

3

3 DIVISIONS TO SUPPORT THE SUCCES OF YOUR PROJECTS.

Interfine Chemicals

Building blocks, intermediates, bulk
Screening compounds
Customs synthesis
Flash purification
Parallel synthesis

Interchrom

Analytical Sciences,
Purification,
Spectroscopy

Bioscience Innovations

Immunology, Separation Techniques,
Proteomics, Genomics & Cell Biology

4

4 ACTIVITIES

*Interchim's consumable technologies
Instruments manufacturer
Distribution
Services to customers*

INTERCHIM HEADQUARTERS

Warehouse & Distribution
25,000 sq. ft.
200 to 300 parcels a day
Delivery 24h from stock

R&D Laboratories + Production
17,000 sq. ft.
Scientific team of PhDs, MS, Technicians
Part time University / Industry
Additional University research program collaboration

Instrument manufacturing
5500 sq.ft
R&D department located in
Vannes (Brittany)

Sales & Administration
11,000 sq. ft.
Located in the heart of France
100 employees
4500 customers
200,000 Worldwide end users
Web site: 50,000 visits/month
2.5 Million pages views
300 technical questions/day

INTERCHIM PROPRIETARY PRODUCTS

Upti-prep

UptiCap™

Universal Caps for GC
capillary columns

Magic Box™

The Essentials accessories for
HPLC, prep LC, Flash & GC

Upti-prep®

Interchim silica base technology for SPE,
HPLC, prep LC & Flash purification

UptiBond™ Premium

UptiBond™

GC capillary columns for multiple
applications in GC/MS, GC2D

UptiDisc™

Syringe filters for
sample preparation

Vials & Closure

Extensive range of solutions for HPLC
& GC sample management

puriGaz™

Cartridges and
base holder for
gas purification

Atoll™

Columns, cartridges, 96 well plates &
polymer sorbents for Solid Phase Extraction

INTERCHIM PROPRIETARY PRODUCTS

Uptiplate™

384, 96 & 48 well plates for filtration,
Solid Phase Extraction & Collection

Uptisphere®

HPLC & prep LC columns
based on Upti-prep, our
ultrapure spherical silica
technology

Uptisphere® Protein A

Affinity purification
columns

Upti-Clean™ & Recovery™

Columns, cartridges, 96 well plates &
pure spherical silica sorbents for Solid
Phase Extraction

FluoProbes®

Fluorescent probes & Labeled Antibodies

Uptisphere® X-series™

HPLC & prep LC columns for the
separation of small molecules &
bio-medicaments at low & high pH

HPH™

High Performance LC columns
hardware for UHPLC and HPLC

PolyClean™

Mixed polymer for extraction
of acidic, basic & neutral
compounds. by SPE

Uptisphere® Strategy™

UHPLC, classic analytical & prep LC
columns with high loadability

Uptisphere® 300Å

HPLC & prep LC columns for Identification,
Separation & Purification of Proteins,
Peptides & Polypeptides

Uptipack™

Packed Glass & Stainless
Steel GC columns

Upti-Trap™

Trapping columns for Online
Solid Phase Extraction

Uptima®

Standard Lab Consumables for Proteins
Assays, Biochemistry, Electrophoresis,
Substrats & Buffers

Prim'AB Search™

Search engine for primary
Antibodies (< 100000 refs)

BioP™

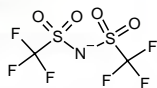

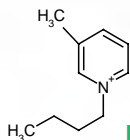

Mixed biopolymers
for extraction of Proteins,
Peptides & Bio-Molecules by SPE

Upti-Tip™

Nano sample preparation

puriFlash®

Ultra Performance Flash
purification Columns
15, 30 & 50 µm

LIQ-IONIC™

The new reaction media
for organic synthesis

puriFlash® 210

Discover the Automated
Modern Flash Purification
Academia - Research
Flash columns up to 330 gs
150 ml/min @ up to 10 bar

puriFlash® 430

Enter the UPFP concept
Lab Scale & Routine
Flash columns up to 1.6 kg
200 ml/min @ up to 30 bar

puriFlash® 450

Cross-over Flash /Prep LC
Lab Scale up to 1.6 kg flash + up to 80
mm id - 15 µm Prep-LC cols
250 ml/min @ up to 50 bar

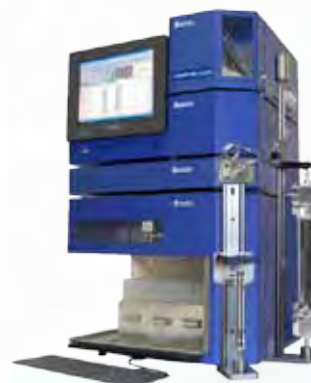

puriFlash® 4100

Premium Flash-Prep LC
Lab Scale up to 1.6 kg flash
+ up to 80 mm id - 10 µm Prep-LC col
250 ml/min @ up to 50 bar

puriFlash® 4250

Premium Prep LC
Method development
up to 80g flash
+ up to 30 mm id - 5 µm Prep-LC cols
50 ml/min @ up to 250 bar

puriFlash® 4250

Premium Prep LC
Lab Scale up to 1.6 kg flash
+ up to 80 mm id - 5 µm Prep-LC cols
250 ml/min @ up to 250 bar

puriFlash® 800

Pilot & Process
Large Scale Purification
Flash columns up to + kgs
800 ml/min @ up to 10 bar

E-Buy - Online shop:

Join Interchim.com to use Internet Technology to Efficiently Manage your Purchases.

Save on your internal costs

Focus your Purchase Department on added value tasks

Keep a direct link with your supplier

Improve your internal customers' satisfaction

Interchim operates through the largest Market Places:

E-Search - your Search Tool:

E-Search - your Search Tool gives you a quick access to + 7000 Suppliers,
+ 1 500 000 items.

And it gives you access to: Technical files, Product files, Manuals...

E-serv - Your personalized services:

E-Serv define your personalized services.

OUTSOURCING

An Outsourcing strategy gives you the opportunity to:

Save Costs: Lowering the overall cost of the service to the business.

Focus on your Core Business: Internal Resources are focused on developing core business.

Improve quality: Gain significantly in quality through contracting out the service with a new service level agreement.

Create Operational expertise: Access to operational best practice that would be too difficult or time consuming to develop in-house.

Access to talent: Access to a larger talent pool and a sustainable source of skills, in particular in science and engineering.

Develop Scalability: The outsourced company will usually be prepared to manage a temporary or permanent increase or decrease in production.

Enhance capacity for innovation & Reduce Time to Market
